Maximize Your Presentation Impact

Walk among your audience or work directly at your PolyVision Walk-and-Talk Interactive Whiteboard to present, interact with, and capture images digitally. Instantly save or print anything written on the whiteboard, or add front projection to interact with the touch-sensitive surface. Write directly on the surface with your finger or standard dry-erase markers, or actively engage your audience with the intuitive remote control.

Award Winning Family

The interactive whiteboard is a member of the award-winning Walk-and-Talk Product Family, sharing key, easy-to-use attributes. PolyKey Technology enables instant plug-and-play so you can use any Walk-and-Talk product instantly, eliminating the need to pre-load or learn proprietary software; and the intuitive remote control allows you to control all your computer applications from any point in the room.

The Freedom to Move and Inspire

Optimize your flexibility with any one of the interactive whiteboard's accessories, including the world's only "feathertouch" Adjustable Height Stand or wall-mounted Power and Data Track.

Walk-and-Talk Interactive Whiteboard: Don't just present – inspire.

Surface Material
Touch-sensitive, Teflon® coated, dry erase, low glare, projection-optimized surface

Power Requirements
USB powered, except with optional wireless kit

Certification
FCC class A, CE, RoHS

Driver/Software Features
• Instant loading PolyKey™ driver for walk-up-and-use operation or Webster® software for advanced users
• On screen keyboard and image mark-up
• Print or save images in PDF, BMP, TIFF, PNG, or JPG image format (other options available with free Webster software)

Accessories (Included)
• Remote control with built-in touch pad and trigger-click technology (two AA batteries included)
• Active infrared eraser with two spare eraser pads (two AAA batteries included)
• 15 foot (4.6m) USB cable and USB PolyKey™ with driver
• Stylus
• Installation and operation guide
• Reversible remote control holder, mounts to either side of board
• Wall mounting brackets
• Two remote control lanyards

Computer Requirements
Microsoft Windows®:
• Windows 98, 2000, ME, XP, or Tablet XP
• 128 MB RAM
• One available USB port

Apple Macintosh®:
• Power PC or Intel processor
• Mac OS 10.2 or higher
• 256 MB RAM (higher screen resolutions require more memory)
• One available USB port

Warranty
• Two year limited warranty, free upgrade to five years upon product registration

Options
• Lightning calibration-free technology (WTL Series)
• Sliding Power and Data Track System (PD series, see below)
• Integrated room-blasting infrared wireless computer connection (WTW 10)
• Feathertouch Adjustable Height Stand (AS series)
• RM Easiteach® Studio Educational Software (WT ET Series)

Power and Data Track System
The Walk-and-Talk Power and Data Track System combines the ultimate space flexibility with aesthetics; hiding unsightly power cords and allowing users to slide their Walk-and-Talk board along the track, multiplying writing space and enhancing presentation capablities. For optimal flexibility, specify track system that is at least double the length of your Walk-and-Talk board (up to 16')
